As a minor 14 years of age or older, I understand I am entitled to receive counseling services for no more than six sessions or thirty days, whichever comes first, without the consent of my parent/guardian and without that parent/guardian being informed. ### Parent/Guardian communication regarding services:

We believe parents play an important role in their children's treatment. Our practice is to include all parents/involved adults in treatment to support children with having healthy relationships and a strong support network. It is Syntero's policy to provide you with general information about your child's treatment, but not to share specific information that your child has disclosed without your child's agreement. Therapy is most effective when a trusting relationship exists between the behavioral health provider and the client. Confidentiality is especially important in earning and keeping that trust, which is why it is important for minors to have a "zone of privacy," where they are able to discuss personal issues without fear that their thoughts and feelings will be immediately communicated to their parents/guardians or other third parties. This is particularly true for adolescents who are naturally developing a greater sense of independence and autonomy. If, at any time, we have concerns about your child's safety, we will immediately inform you.

### Consent for services with minors:

I understand that behavioral health services may include, but are not limited to, discussions on family history, educational achievements and aspirations, social connections, meaningful and/or challenging experiences, legal history, health and trauma history. I understand that my child's provider will review my child's symptoms and behaviors in order to diagnose (or rule out diagnoses). Examples of diagnoses that I consent to, as long as they are applicable to my child, with resulting treatment, include, but are not limited to: depressive disorders, anxiety disorders, attention-deficit hyperactivity disorders, obsessive-compulsive disorders, gender dysphoria, gender-related conditions, trauma and stressor-related disorders, autism spectrum disorder, eating disorders, disruptive and impulse control disorders, bipolar disorders, substance use disorders, and/or personality disorders.

I hereby give Syntero my permission to provide services including, but not limited to, counseling, psychotherapy, alcohol and other drug treatment, psychiatry services and case management to:
