Informed Consent Addendum for Telebehavioral Health Services

Syntero continues to monitor the latest preventative measures recommended by the Centers for Disease Control and the State of Ohio to curb the spread of the COVID-19 virus. Effective immediately, we are providing telebehavioral health services rather than face to face services at our offices.

What is Telebehavioral Health?
Telebehavioral health includes the practice of diagnosis, treatment, education, goal setting, accountability, referral to resources, problem solving, skills training, and help with decision making through the use of internet-based videoconferencing or phone calls. Services may include counseling, case management and psychiatry including the prescribing of medications.

1. The benefits of telebehavioral health include greater flexibility by geographical location, reduction of travel to a physical office and participation from your own home environment.

2. The risks of telebehavioral health include the potential breakdown in the technology including poor connection, loss of sound or loss of connection. A second factor that may impact the communication is that nonverbal cues are less readily available to both the clinician and the client.

3. All existing laws regarding privacy, confidentiality, access to mental health information, and client rights and grievance procedures apply the same as face-to-face sessions.

4. Nobody will record the session without the permission from the other person(s).

5. It is important to be in a quiet, private space that is free of distractions (including computers, additional phones or other devices) during the session.

6. Only agreed upon participants will be present in the room of the clinician and the client during the telebehavioral health session.

7. The clinician will verify the physical address of the client's location at the start of each session. This is to ensure we are "meeting" at a place that will protect your confidentiality (e.g. No coffee shops or public places). Sessions will not occur while any of the participants are driving.

8. It is important to be on time. If you need to cancel or change your tele-appointment, you must notify the clinician in advance by phone.

9. We need a back-up plan (e.g., phone number where you can be reached) to restart the session or to reschedule it, in the event of technical problems.

10. We need a safety plan that includes at least one emergency contact and the closest ER to your location, in the event of a crisis situation.

11. If you are not an adult, we need the permission of your parent or legal guardian (and their contact information) for you to participate in telebehavioral health sessions.

12. Your clinician may determine that due to certain circumstances, telebehavioral health is no longer appropriate and that we should consider alternative resources for your treatment.

DISCLOSURE INFORMATION/RELEASE TO ACCESS FUNDS FOR SUBSIDIZED FEE

When a client qualifies for a subsidized fee (i.e. **Sliding Fee Service Agreement**), we must submit your name, address, and social security number to the claims payment system for the county where you reside, in order to receive reimbursement for services provided.

To protect your confidentiality, federal law (42CFR Part 2) stipulates that we can only release this information with your authorization. The purpose of this authorized release is to determine your eligibility for subsidy funds and to allow Syntero to be reimbursed for your treatment. The information will be disclosed to the State of Ohio and the ADAMH Board of Franklin County or the Delaware-Morrow County Mental Health and Recovery Services Board, depending on your county of residence. Identifying information will only be used to generate payments. Demographic information will be kept without any name attached and reported to Ohio Health Care Data Center, the State of Ohio, and the Board for your county. The information will not be available to any other sources or used for other purposes. Billing information will be kept in a secured facility or network for seven years after treatment ends. Only demographic information will be kept at that time.

If you reside in Franklin County, outcome data utilizing the Outcome Questionnaire (OQ) is shared with the ADAMH Board of Franklin County. Information is shared with the Board to verify outcome measures are completed by those who receive subsidized services. In addition, they are able to access general reports measuring the effectiveness of our services.

If you want more information about the county boards, our billing process, or confidentiality, please ask to speak to our Client Rights Advocate, she will gladly answer any questions.

You may revoke authorization for release of this information at any time. However, this would mean losing access to subsidy funds. If it is not revoked, your authorization will terminate when your last date of service provided has been billed and payment has been received.

Without an authorization for release of information, you will not be eligible for a public subsidized fee and will need to pay the full fee for services.

My signature below acknowledges my understanding and authorization for disclosure of information necessary to access funds for subsidized fees.
