

Here For You - the Genoa Healthcare Pharmacy Team at Syntero

The Genoa Healthcare pharmacy located within Syntero in Dublin, Ohio is open and available to serve staff and consumers, including those receiving care via telehealth. The pharmacy provides a higher level of pharmacy service, specifically designed for the people we serve.

At Genoa Healthcare, they:

- Fill all medications (not just behavioral health)
- Mail medications at no extra cost and offer curbside pick-up
- Assist us with prior authorizations, medication and insurance questions
- Organize the consumer's pills based on the date and time they need to take them
- Help consumers transfer prescriptions from other pharmacies
- Reach out to consumers regularly to check on refills

This all means that Genoa makes it easier for consumers to get, and stay, on their medications. A peer reviewed study found that consumers using a Genoa Healthcare pharmacy had medication adherence rates of more than 90% compared to about 50% at a typical retail pharmacy. In addition, these consumers had 40% fewer hospitalizations and 18% fewer emergency room visits.

"We're here for you and look forward to seeing you soon!" Your Genoa pharmacist, Ryan Riley.

The Genoa Healthcare pharmacy, located in our Dublin office, is open and ready to serve you - even if you're meeting with your doctor by phone or video! Pharmacist Ryan and Technician Alejandra are available every Monday-Friday.
