

Syntero Programs for Children

Outpatient Mental Health & SUD Counseling

Syntero provides evidenced based therapeutic treatment and counseling services on behalf of children, adolescents, adults, and older adults. A specialized staff of master's level clinicians is trained in a variety of treatment modalities that help individuals deal with substance abuse, trauma, grief, and other difficult behavioral health issues.

Child & Family Services

The goal of Syntero's Child & Family Services program is to provide valuable support to at-risk school-aged children and adolescents exhibiting behaviors that indicate a need for therapeutic interventions and prevention services. A team of specialized therapists and school based outreach clinicians provide treatment and prevention programming as well as special educational seminars for parents.

School Based Prevention Services

Syntero provides valuable support to at risk school-aged children and adolescents exhibiting behaviors that indicate a need for therapeutic interventions and prevention services. The specialized school-based team provides services designed to strengthen resiliency and coping skills, decrease disruptive behaviors, provide prevention and support for at risk students and increase classroom success.

Case Management Services

Syntero offers case management services for children, adolescents, adults, and older adults that are community based and adapted to the individual needs of the client. These services are for Franklin County residents who are Medicaid eligible or uninsured. The goal of Syntero's case management services is to help individuals reduce the barriers that prevent them from reaching self-sufficiency.

Intensive Outpatient Program for Substance Use Disorder

Syntero offers an intensive outpatient program for adolescents and adults that are struggling with addiction and behavioral issues. The program is evidenced based and proven effective in maintaining long-term sobriety. Most private insurance, Medicaid, EAPs, and private pay are accepted.

"renew"

Syntero's Recovery-Engagement-Networking-Employment-Wellness (renew) program is offered in partnership with The Center of Vocational Alternatives and Concord, Inc. The program focuses on at-risk young adults 18-25 years of age following discharge from a first time inpatient mental health hospitalization. The goal of the program is to provide concentrated interventions in a short-term program to reduce the incidence of re-hospitalization for this vulnerable population.

Integrated Care

Syntero has collaborative partnerships with primary care providers to provide integrated care for shared clients through increased communication, shared outcomes and care coordination. Integrating mental health, substance use and primary care services produces the best outcomes and proves the most effective approach to caring for people with multiple healthcare needs.

Diversion Education

This program provides education for youth referred by a local court or police department for violations specifically related to poor decision-making and actions. The program uses lectures, demonstrations and experiential components that focus on conscious choices, problem solving skills, emotional regulation strategies and goal setting. This intervention helps adolescents and youth learn conflict resolution and emotional regulation skills.

Dublin A.C.T. Coalition

The Dublin A.C.T. (Adolescents and Community Together) Coalition was created in 2008 and focuses on drug prevention strategies. The mission of the program is to prevent and reduce substance abuse in our community. The Coalition works on education and prevention in the areas of underage drinking, drug abuse, community support and awareness, and health and safety of the youth in our community.

Permanent Families Solutions Network Partnership

“Building Successful Families” is a specialized program that delivers in home therapy to the biological parents of children who have been placed in foster care. The goal of the program is to provide mental health and alcohol and drug services to biological parents so they may reunite with their children. Referrals must come from Buckeye Ranch Permanent Family Solutions Network program.

Healthy Bodies/Healthy Futures

Syntero’s Healthy Bodies/Healthy Futures program (HBHF) is a comprehensive sexual health education program designed to empower teens in Franklin County. HBHF teaches age-appropriate, medically accurate information and skills needed to make sound choices and practice healthy behaviors. The goal of the program is to ensure that adolescents and young adults in Franklin County are able to successfully reduce risky behaviors in order to prevent the spread of infections and unintended pregnancies.
